INDEX

EXPLANATORY NOTES

Divisions of State. – The Divisions of State for Victoria – Metropolitan Urban, Other Urban, Rural and Migratory, as defined for Census purposes and as referred to throughout this Part, are constituted as follows:–

Metropolitan Urban – comprises the Statistical Metropolitan Area of Melbourne which includes the City of Melbourne and forty adjacent Cities, Boroughs and Shires (or parts of Shires) as detailed in the tables of Part I of this Volume (see also map accompanying Part I). The boundaries were extended as from 1st January, 1954, and the population so added at the Census of 30th June, 1954, was 120,628 persons. Other Urban comprises, for the 1954 Census, all cities, towns and boroughs outside the Metropolitan Area as well as non-municipal towns with a population of 1,000 persons or more; for the 1947 Census, comprises all extra-metropolitan cities, towns and boroughs only. Rural – comprises the remaining portions of the State and is affected by the intercensal changes in the areas of the Metropolitan Urban and Other Urban Divisions. Variation in the boundaries of divisions of State is a factor that must be borne in mind when making comparisons between Censuses. Migratory – refers to persons not elsewhere enumerated who at midnight between 30th June and 1st July, 1954, were travelling on ships in Victorian waters, or on long-distance trains.

Age. – In tables relating to age herein, ages recorded at Censuses have been adjusted by the distribution of unspecified ages, i.e., instances where ages have been omitted from the Census schedule. At Censuses prior to 1954 unspecified ages were distributed proportionally after completion of tabulation (over ages 15 years and upwards, except at the 1911 Census, when an attempt was made to distinguish "children" from "adults", and the distribution was made over ages 0–14 years and 15 years and over). At the 1954 Census unspecified ages were distributed over all ages prior to tabulation.

The system employed at the 1954 Census was as follows. Four packs, each of 500 cards, with ages entered thereon in appropriate proportions, were made up for each sex, and the cards were arranged in random order. The packs consisted of:– (i) a "children's" pack – ages 0–15 years. (ii) a "work force" pack – ages 16–64 years for males and 16–59 years for females, (iii) an "aged" pack – ages 65–80 years for males and 60–80 years for females, and (iv) a "general" pack – ages 16–80 years. On encountering an instance of a missing age the procedure was to determine from other information available on the Schedule the appropriate pack to be used, and the range within which the missing age must lie. This pack was then searched until the first card containing an age within that range was found, and the age thereon was inserted on the Schedule. When no supplementary information was available to determine a range of age, the "general" pack was used. A more detailed explanation of this procedure will be contained in the Statistician's Report.

Nationality. – In all Census tabulations naturalized British persons are included under the heading "British". Separate particulars of these persons are not available.

Religion. – Under the Commonwealth Census and Statistics Act the Census question on religion has always been optional, but it was not until the 1933 Census that this was stated on the Census form, a practice that has been continued at subsequent Censuses. The very large increases since 1921 in the number of persons who apparently were unwilling to answer the inquiry are attributed to the explicit statement that an answer was not obligatory.

Industry. – Comparisons of particulars of industry for the 1954 Census with those of previous Censuses are not provided herein, both because of the size of the tables involved and because changes in industry classification between Censuses make accurate comparison difficult if not impossible.

The broad features of this Part may be ascertained from the Table of Contents on page 2, but to facilitate reference to particular subjects an index is also provided – see end of publication.

This Part contains particulars relating to each characteristic of the population obtained from the 1954 Census tabulations. However, additional information is available in some instances, but limitations of space prohibit its publication in complete detail. Such additional information relating to this Part and also to Part I. – Analysis of Population in Local Government Areas, etc. may be obtained on inquiry from the Commonwealth Statistician.

Particulars of full-blood aboriginals are excluded throughout.

In this publication certain instances of incorrect data which appeared in Part I have been corrected.
